All you need to know about the *Cake Smash session*

Kids love to make a mess and play with food.
It's fun, it's instinctive and it's part of their exploration of the world.
When we create a fun environment for your child,
you can be very sure that some memorable moments will happen,
resulting in some memorable and unique photos.

What to expect

Before

It is best to book your little ones cake smash at least a month in advance. This is to give time to have there set perfect and ready.

During

Get ready to laugh as this is the fun part sitting back and watching your little one enjoying themselves. Make sure to bring a change of clothes as the icing can get very messy.

After

Your photos will be ready for viewing via a personal online password protect gallery. Where you can select images and possible add ons.

The session lasts up to one hour

Before the cake

We start off with some non-messy portraits. I would always encourage for the whole family to join in. It's a fantastic opportunity to get an update on your family photo. There will be some solo portraits of our birthday girl/boy too. This step helps the baby to get familiar with the new environment and get into the swing of things.

The Smash

Then we bring out the cake. Usually, we let the baby plays with it for a while. When they get bored we bring out the weapon (the wooden spoon) to bash the fun out of it. Sometimes we hide some tiny snacks in the cake, to get the little fingers to really explore it, so all trick of the trade is used here to ensure we will get great pictures.

The Splash

After all that messy action we move onto a cleanup part. here is a small tub filled with just enough water to cover up to baby's legs. Baby's own bath products are used to make bubbles. We splash and have fun again.

Investment

The Smasher

1 hour photo session

10 PHOTOS DELIVERED BY EMAIL

Basic decoration

BYO cake

Portraits with and without the cake

Private online gallery

\$200

Mess Maker

1 hour photo session
